Laser triangulation sensor with background suppression, ultra-small design with M3 mounting, 15 mm sensing range, PNP output, 2 m fixed cable

The R3 series nano sensor has been developed for a broad range of applications. It offers excellent durability and is exceptionally easy to install. The housing is compact and, with its 45° cable outlet, can be installed in the smallest spaces. New functional principles and functionality open up a range of new options. The DuraBeam laser sensors are durable and can be used in the same way as a standard sensor.
