

## Inductive sensor NRN15-18GM40-E2-IO-C-V1

- 15 mm non-flush
- Reduction factor = 1
- Magnetic field resistant
- Weld Immune
- IO-Link interface for service and process data
- Switch point mode or window mode can be set
- Switching function, stability alarm and pulse extension can be set

# 

#### **Function**

Reduction factor 1 sensors reliably detect different metals with the same switch state.

The integrated IO-Link interface enables clear identification of the sensor and diagnosis of the sensor condition. When using the sensor, parameters and operating modes can be optimally configured specifically for the intended application. In addition to setting the switching function and a pulse extension, the user can select either switch point mode or window mode in combination with a stability alarm. In switch point mode, the stability alarm signals the detection of an object in the area between the assured operating distance and operating distance sn. In window mode, it signals the detection of an object below the window between operating distance sn and the nearest operating distance. A stability alarm is displayed to the user via a flashing LED and process data.

Factory settings

Release date: 2022-07-13 Date of issue: 2022-07-13 Filename: 306533-0007\_eng.pdf

Refer to "General Notes Relating to Pepperl+Fuchs Product Information".

## NRN15-18GM40-E2-IO-C-V1

#### **Technical Data**

Default setting

**General information** 

Scope of delivery

operating mode = switch point mode with stability alarm switching function = Normally open (NO)  $\,$ switching distance = 15 mm

2 self locking nuts in scope of delivery

#### Connection

## **Connection Assignment**

Wire colors in accordance with EN 60947-5-2

## **Function Principle**

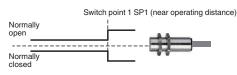

#### Switching output modes

#### Switch point mode at rated operating distance $\mathbf{s}_{\mathbf{n}}$

Switch point 2 SP 2 (rated operating distance  $s_{n}$ )

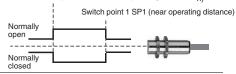

#### Switch point mode with near operating distance

#### Window mode

Switch point 2 SP 2 (rated operating distance  ${\boldsymbol{s}}_{n)}$ 

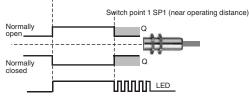

#### Stability alarm

Switch point mode with stability alarm (factory default)

#### Window mode with stability alarm

Switch point 2 SP 2 (rated operating distance sn)

## Accessories

 Image: BF 18
 Mounting flange, 18 mm

 Image: V1-G-2M-PUR
 Female cordset single-ended M12 straight A-coded, 4-pin, PUR cable grey

#### Inductive sensor

| Accessories          |                      |                                                                                                                                                                                                    |  |  |
|----------------------|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
|                      | V1-W-2M-PUR          | Female cordset single-ended M12 angled A-coded, 4-pin, PUR cable grey                                                                                                                              |  |  |
|                      | ICE2-8IOL-G65L-V1D   | EtherNet/IP IO-Link master with 8 inputs/outputs                                                                                                                                                   |  |  |
|                      | ICE3-8IOL-G65L-V1D   | PROFINET IO IO-Link master with 8 inputs/outputs                                                                                                                                                   |  |  |
|                      | ICE2-8IOL-K45S-RJ45  | EtherNet/IP IO-Link master with 8 inputs/outputs, DIN rail, screw terminal                                                                                                                         |  |  |
|                      | ICE3-8IOL-K45P-RJ45  | PROFINET IO IO-Link master with 8 inputs/outputs, DIN rail, push-in terminals                                                                                                                      |  |  |
|                      | ICE3-8IOL-K45S-RJ45  | PROFINET IO IO-Link master with 8 inputs/outputs, DIN rail, screw terminal                                                                                                                         |  |  |
| 5-1-<br>5-1-<br>5-1- | IO-Link-Master02-USB | IO-Link master, supply via USB port or separate power supply, LED indicators, M12 plug for sensor connection                                                                                       |  |  |
|                      | ICE1-8IOL-G30L-V1D   | Ethernet IO-Link module with 8 inputs/outputs                                                                                                                                                      |  |  |
|                      | ICE1-8IOL-G60L-V1D   | Ethernet IO-Link module with 8 inputs/outputs                                                                                                                                                      |  |  |
|                      | ICE2-8IOL-K45P-RJ45  | EtherNet/IP IO-Link master with 8 inputs/outputs, DIN rail, push-in connectors                                                                                                                     |  |  |
| Š                    | V1-G-OR2M-POC        | Female cordset single-ended M12 straight A-coded, 4-pin, POC cable welding-bead resistant orange,<br>suitable for robotic applications, torsion resistant, oil resistant, molecularly cross-linked |  |  |
