

Terminal Block for Cold Junction Compensation

K-CJC-BU

- 3-pin screw terminal
- For KF modules
- Integrated Pt100 resistance thermometer for cold junction compensation
- Packaging unit: 1 piece, blue

Terminal block for cold junction compensation, 3-pin screw terminal, blue

Function

The terminal block is suitable for K-System applications.
The blue terminal block is used for connection of field signals with thermocouples from or in the explosion hazardous area.
This terminal block has an integrated encapsulated Pt100 resistance thermometer for cold junction compensation.
The terminal block can be coded with the provided coding pins KF-CP.

Dimensions

Technical Data

General specifications		
Number of pins		3
Mechanical specifications		
Core cross section		max. 2.5 mm ²
Material		
Color		blue
Mass		approx. 5 g
Dimensions		15.1 x 15 x 18 mm (0.6 x 0.6 x 0.7 inch)
Construction type		screw terminal with integrated Pt100 resistance thermometer , removable
Structure		single-row
General information		
Packing unit		1 item(s)

Release date: 2026-08-05 Date of issue: 2026-08-05 Filename: 071901_eng.pdf
