

Voltage Adjustment Module

FieldConnex® Fieldbus

KLD0-SAA

- Series voltage reducing module
- Removable terminals
- Polarity reversal protected
- Installation in cabinet on DIN mounting rail
- For FOUNDATION Fieldbus H1 and PROFIBUS PA

Module for use with Segment Protectors

Function

Pepperl+Fuchs Segment Protectors feature a safety switch off for explosion protection at typically 31.5 V. In rare cases the tolerances in other manufacturers' power modules in combination with very short cable lengths with little or no voltage drop lead to a switch off of the Segment Protector. The KLD0-SAA is used to limit the voltage to uncritical values. The KLD0-SAA is installed in close proximity to the power supply within the control cabinet.
