11 Description

The GR Ex e enclosures are increased safety and dust protected component approved enclosures that are moulded in anti-static glass fibre reinforced polyester with a lid and base. The lid is held in place with stainless steel screws and has a rebate in which the gasket is held. The base has a lip that sits approximately central to the gasket and compresses it when the lid is fastened down. The enclosures may be mounted in any orientation.

The enclosures are available in a range of standard sizes shown in the table below, intermediate sizes are also permitted. Hinges may be fitted as an option as may an earth continuity plate and internal/external earth stud.
