

THIS CERTIFICATE IS ISSUED AS AN I.A. CERTIFICATE IN TERMS OF THE MINE HEALTH AND SAFETY ACT, ACT NO 29 OF 1996 (AND REGULATIONS), THE OCCUPATIONAL HEALTH AND SAFETY ACT (ACT 85 OF 1993) AND REGULATION 17 OF THE ELECTRICAL MACHINERY REGULATIONS

		-	-		
IA CERTIFICATE	MASC MS/17-0854X	Issue	3		
Issue Date	30 April 2024	Expiry Date	30 April 2027		
** Based on Certificate No	IECEx BAS 06.0031X	Issue / Variati	ons / Amendment	2	
Requested by	Pepperl+Fuchs (Pty) Ltd				
	Zerwick Forum, 8 Glen Eagle Office Park Cnr Monument Rd and Braambos St,				
	Glen Erasmia, Kempton Park 1619, South Africa				
Manufacturer	Pepperl+Fuchs SE				
Description	Lilienthalstrasse 200, 68307 Mannheim, Germany The Type HiC2871 Transformer Isolated Solenoid Driver is designed to transfer current from				
Description	unspecified apparatus located in the non-hazardous area to the hazardous area. The voltage and				
	current passed to the hazardous area are limited to intrinsically safe levels and have linear				
	characteristics. The hazardous area circuit is galvanically isolated from the non-hazardous area				
	circuit using transformers.				
	The Type HiC2871 Transformer Isolated Solenoid Driver comprise a number of electronic				
	components, including an isolating transformer, fuses, zener diodes and resistors all mounted on				
	a single printed circuit board and housed in a plastic enclosure with two polarised sockets in				
	the base of the enclosure for hazardous and non-hazardous area connections via a terminal				
	backplane. LED indication is provided for channel status.				
	See **Base certificate annex for electrical parameters.

This certificate covers all units sold as long as the QAR/QAN remains valid. According to the relevant requirements of the MHS Act and the OHS Act, production units of explosion protected equipment are required to comply with third party quality assurance (an approved mark scheme or batch testing by an accredited test laboratory).					

Apparatus in hazardous locations is subject to the following provisions as applicable, which shall be adhered to: SANS 10086 requirements; Any conditions mentioned in the above certificate; Any relevant requirements of the MHS Act; Any restrictions and conditions enforced by the chief inspector of mines, principal inspector (Group I equipment) or chief inspector of factories (Group II equipment).

This certificate may only be reproduced in full The certificate is not transferable and remains the property of the issuing body.

## IA CERTIFICATE: MASC MS/17-0854X Equipment: HiC2871 Transformer Isolated Solenoid Driver (Expiry date: 30 April 2027)

Page 2 of 2

ANNEX A

This	document is based on and must be read in conjunction with certificate IECEx BAS 06.0031X.			
Description (According to Base Certificate) **				
"Refer to description in Base Certificate ** (and any applicable schedules/issues/variations)."				
Issue	Issue 1: Supplemented for revision as per ARP 0108. Issue 2: Revision as per ARP 0108. Issue 3: Supplemented for review as per ARP 0108.			
Standard compliance	See Base Certificate **			
Special conditions of safe use ("X")	• The socket connections at the base of the enclosure must be afforded a degree of protection of at least IP20 when correctly installed.			
Conditions of manufacture	None.			
Conditions of Certification	<ul> <li>This IA Certificate covers all units sold from the date of this document to the expiry date of this certificate.</li> <li>As per ARP 0108 a maximum three yearly review is required on this IA Certificate (expiry is determined as per the QAR/QAN/QMS expiry date).</li> <li>The apparatus must be additionally marked with the MASC marking details above.</li> <li>This approval only covers the equipment as certified above and does not include any scheduled additions or variations / amendments / new issues to the certificate(s), made after the above date.</li> <li>The equipment does not need to be re-tested when used on the conditions and with such restrictions as prescribed by the certificate on which this IA Certificate is based and any other conditions in this IA Certificate.</li> <li>The certification on which this IA Certificate is based must remain valid.</li> <li>The extent of the requirements in the ARP 0108 (or regulations), SANS 10108 and any other applicable regulations on the certification/report for the equipment must remain valid.</li> </ul>			
Conclusion:	<ul> <li>From the above and the selective examination of the documentation, nothing contrary to the requirements of the applicable standards was found, provided that the equipment / component is used as described in the above document / certificate and according to the MASC conditions below. A MASC IA certificate is issued based on the work done as per the Base Certificate **.</li> <li>The routine tests for production units according to the Base Certificate ** must be complied with (if applicable).</li> </ul>			

This document is issued based on Mining And Surface Certification's Standard Contract terms and conditions available on request.

While every endeavour is made to ensure that a test / assessment / inspection is representative and accurately performed, and that a report / certificate is accurate in the quoted results and conclusions drawn from the test / assessment / inspection, MASC or its directors/employees shall in no way be liable for any error made in carrying out the test / assessment or for any errorneous statement, whether in fact or in opinion, contained in a report / certificate issued pursuant to a test / assessment / inspection.

MASC takes no responsibility for any non-conformances, exclusions, or any results / assessments / inspections not in compliance with the standards. By marking the equipment in accordance with the documentation / standard, the manufacturer / applicant attests on his own responsibility that the equipment / installation has been designed and constructed in accordance with the applicable requirements of the relevant standards and documentation, that the routine verifications / routine tests have been correctly completed and the equipment / installation complies with the documentation and standard(s).

This document is only for use and application in South Africa. It is issued based on National interpretations and accepted practices.

This document may only be reproduced in full. This certificate is not transferable and remains the property of the issuing body. This document will not be supported by MASC for certification purposes outside the borders of South Africa.
