

1 **EU-TYPE EXAMINATION CERTIFICATE**

2 Equipment intended for use in Potentially Explosive Atmospheres Directive 2014/34/EU

3 Certificate Number: **Sira 07ATEX1135** Issue: **4**

4 Equipment: **F150 Range of Junction Boxes, Control panels, Instrument control panels and Distribution boards**

5 Applicant: **Pepperl+Fuchs GmbH** (orporating the Govan brand)

6 Address: Lilienthalsraße 200
68307 Mannheim
Germany
These products may only be manufactured at any Pepperl+Fuchs, Facility that has been audited for the manufacture of the type of protection defined on this certificate; in addition, the site must also be listed on the Quality Assessment Notification PTB 16 ATEX Q001, PTB 97 ATEX Q008 and PTB 97ATEX Q020 or their subsequent issues.

7 This equipment and any acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.

8 CSA Group Netherlands B.V., notified body number 2813 in accordance with Articles 17 and 21 of Directive 2014/34/EU of the European Parliament and of the Council, dated 26 February 2014, certifies that this equipment has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of equipment intended for use in potentially explosive atmospheres given in Annex II to the Directive.

The examination and test results are recorded in the confidential reports listed in Section 14.2.

9 Compliance with the Essential Health and Safety Requirements, with the exception of those listed in the schedule to this certificate, has been assured by compliance with the following documents:

EN 60079-0:2006 EN 60079-1:2004 EN 60529:1992 (. A1 & A2)

10 If the sign 'X' is placed after the certificate number, it indicates that the equipment is subject to Specific Conditions of Use identified in the schedule to this certificate.

11 This EU-Type Examination Certificate relates only to the design and construction of the specified equipment. If applicable, further requirements of this Directive apply to the manufacture and supply of this equipment.

12 The marking of the equipment shall include the following:

II 2 G

F150 Enclosures

Ex d IIB T6 IP66
-20°C ≤ Ta ≤ +40°C, +55°C or +60°C

FH150 Enclosures

Ex d IIB +Hydrogen T6 IP66
-20°C ≤ Ta ≤ +40°C, +55°C or +60°C

Project Number 1027

Signed:

Title: Director of Operations

13 DESCRIPTION OF EQUIPMENT

The F150 and FH150 Range are rectangular enclosures fitted with a bolted cover forming a flameproof flange joint. The main body and cover are constructed from cast aluminium alloy, stainless steel or cast iron and there is an option of a toughened glass window to be fitted within the cover. The M10 cover fasteners have a minimum yield stress of 1115 N/mm².

The enclosures are fitted with O-rings for the prevention of water and dust ingress and have been independently tested according to the requirements of IEC 60529 to meet IP 66.

Each enclosure is marked with the total power dissipation and components may be fitted not exceeding this. The maximum power dissipation values are as follows:

Ambient Temperature range	Maximum Power Dissipation (W)	Maximum Power Dissipation (W) when fitted with windows	Temperature Classification
-20°C to +40°C	160	140	T6
-20°C to +55°C	102	89	T6
-20°C to +60°C	82	71	T6

The F150 and FH150 range may be supplied in any of the following configurations:

Type Reference	Description
F150-JB	Junction box having a plain cover and containing feed through type terminals.
F150-CP	Control panel having a cover fitted with up to 24 Govan switch or indicator light modules and containing relays, timers, contactors and motor starters.
F150-A2	Instrument control panel having an A2 window and containing instruments or process control equipment.
F150-A5	Instrument enclosure having an A5 window and containing instruments or process control equipment.
F150-CB	Distribution board having a cover fitted with up to 10 switch operators and containing circuit breaker, load-break or isolating switches.
FH150-JB	Junction box having a plain cover and containing feed through type terminals.
FH150-CP	Control panel having a cover fitted with up to 24 Govan switch or indicator light modules and containing relays, timers, contactors and motor starters.
FH150-A4	Instrument control panel having an A4 window and containing instruments or process control equipment.
FH150-CB	Distribution board having a cover fitted with up to 10 switch operators and containing circuit breaker, load-break or isolating switches.

The enclosures may be supplied with Govan MN-7 (F150) or MNH-7 (FH150) blanking plug modules to close unused apertures. The following Govan components may be fitted:

1. MN-1, 2, 3, 4, 5 & 8 – Push button module for Group IIB applications
2. MN-6 – Push button module (pad lockable) for Group IIB applications
3. MN-7 - Plug module for Group IIB applications
4. MN-9 – Indicator light module (andescent type) for Group IIB applications
5. MN-11 – Indicator light module (LED transformer type) for Group IIB applications
6. SM-10 – 10 Amp to 20 Amp switch module for Group IIB applications
7. SM-20 to 63 Amp – Switch module for Group IIB applications
8. MNH-1, 2, 3, 4, 5 & 8 – Push button module for Group IIB +Hydrogen applications
9. MN-7 - Plug module for Group IIB +Hydrogen applications

Issue 4

10. MN-9 – Indicator light module (andescent type) for Group IIB +Hydrogen applications
11. MN-11 – Indicator light module (LED transformer type) for Group IIB +Hydrogen applications
12. SM-10 – 10 Amp to 20 Amp switch module for Group IIB +Hydrogen applications

Variation 1 - This variation introduced the following changes:

- i. To permit the removal of the Special Condition of Safe Use, hence the Certificate number has been amended to remove the 'X' suffix.
- ii. To allow the Description of Equipment to be updated.
- iii. To permit an increase in ambient temperature to +55°C or +60°C hence, the maximum power dissipation values are now detailed in the Description of Equipment, the Marking was amended accordingly.

Variation 2 - This variation introduced the following change:

- i. The Applicants name and address was changed from Govan Industries Pty Ltd, 131-149 Link Drive, Campbellfield, Victoria, 3061, Australia to that currently shown in Sections 5 and 6 above.

Variation 3 - This variation introduced the following changes:

- i. The Notified Body number, responsible for quality, was changed to 0102.
- ii. The alternative manufacturing locations were removed from the description as they are now covered by the statement in section 6 of the certificate.
