

## Battery

The battery of the pocket unit is not fully charged.

It is recommended to charge the pocket unit for five hours before using it for the first time. The full capacity of the battery is reached after 3-4 complete charge/discharge cycles.

## Warranty

The warranty of this product follows the General Conditions of Delivery and Payment of Pepperl+Fuchs SE, which are available at [www.pepperl-fuchs.com](http://www.pepperl-fuchs.com), or alternatively they can be requested directly from the manufacturer.

**QUICK START GUIDE**  
FOR GLOBAL HAZARDOUS AREAS

## Quick Start Guide

You can use this guide to get started with your Visor-Ex® 01 right away and refer to the sections in the user guide if parts are unclear. However, it is still advisable to read through the complete user guide in order to learn all the ins and outs of the Visor-Ex® 01.

Please follow the steps below to continue with the quick start:

### Step 1

1. Position the Visor-Ex® 01 flat on a surface with the display positioned on the side of your dominant eye and the cameras faced front.
2. To change the display position to the side of your dominate eye unscrew the connector on the top of the Visor-Ex® 01 with a 1.5 mm hex key and screw the connector onto the other side of the Visor-Ex® 01.

### Step 2

Download and install the Iristick Services application through Google Play on the Smart-Ex® 02.

### Step 3

Start the Iristick Services application and grant the permissions.

### Step 4

1. Open the charging dust cover of the Smart-Ex® 02 and rotate the cover 180°.
2. Insert the smartphone into the cradle in the prescribed order as shown in the illustration below.

### Step 5

Connect the head unit (Port 1) to the pocket unit (Port 2) with the coaxial cable.

### Step 6

1. Connect the coiled cable of the cradle to the pocket unit via the USB (Port 3)
2. Tap "OK" in the dialog on the smartphone's screen to launch the Iristick Services app.
3. Tap "START NOW" in the dialog to activate the heads-up display.

### Step 7

Use the touchpad of the head unit, voice commands and/or the Smart-Ex® 02 to navigate through the menus and launch for example the Iristick Examples app or the Iristick Camera app.

*\*Recommendation: For optimal experience enable "Always optimize UI for HUD" in the Iristick Services settings.*

## How to fix the Helmet Adapter V01 and Cable Guide V01 to a helmet

1. Before you fix the Helmet Adapter V01 and the Cable Guide V01 to a helmet the relevant surfaces must be clean dry and free of grease.
2. Please mark the middle position of the helmet visor and use the arrow indicator on the adapter to align and to stick it to the right position.
3. Finally please affix the two clips as shown in the images.
