Mutual interference

To prevent the mutual interference between two similar sensors the minimum distances specified in these tables must be kept. For applications where these distances cannot be maintained proximity switches with offset frequencies are available upon request. These can then be installed directly adjacent.

Please talk to our product specialist.

Flat Pack switches (FP)

Type	Installation						
		X	Y	Y	B	Y	Y
	Dimensions [mm]						
NCB40-FP..	flush	≥ 0	≥ 0	≥ 0	120	≥ 225	≥ 0
