## FDI Compatibility

For Ethernet-APL Rail Field Switches

FDI packages for the family of Ethernet-APL Rail Field Switch by FieldConnex® provide access to the switches configuration settings via standard FDI technology. Where applicable, system-specific packages support PROFIBUS PA proxy technology which enables transparent access to field instrumentation with PROFIBUS PA communication.

### FDI package support for control system engineering software

Engineering software	Standard FDI package <sup>1</sup>	System-specific FDI package
ABB FIM for 800xA V2.3	Yes	Yes, with FIMlet <sup>2</sup>
Siemens PDM V9.1	Yes <sup>3</sup>	No

<sup>1</sup> Switch configuration only

<sup>2</sup> Switch configuration and PROFIBUS PA proxy

<sup>3</sup> no UIP support to access the web server
