

# Dual Functionality.

HiC2422—the Universal  
Device for Analog Applications  
in Process Automation.

Two channels for maximum signal  
density in a small 12.5 mm housing.

Your automation, our passion.

 **PEPPERL+FUCHS**

HiC2422

# Universal 2-Channel Module for Termination Board Mounting

## Maximum flexibility

- Each channel can be used as a SMART transmitter power supply for 2-wire transmitters (AI) or output driver for positioners (AO)
- Flexible DCS output: current sink and source on the control side

## Minimal space requirement in the control cabinet

- High packing density in two channels due to the 12.5 mm small housing and 6.25 mm per channel

## Investment security

- Reduced stock due to AI/AO functionality in one device
- Device can continue to be used in case of changes in the system
- Wider temperature range of  $-40\text{ °C} \dots +70\text{ °C}$  increases service life under normal operating conditions

## High safety standard

- Functional safety up to SIL 3
- According to IEC/EN 61508

## Certification for worldwide use

- ATEX
- IECEx
- UL

## Suitable Termination Boards

### For 8 modules:

- HiCTB08-SCT-44C-SC-RA
- HiCTB08-SDC-44C-SC-RA
- HiCTB08-SPT-44C-SP-RS-Y1

### For 16 modules:

- HiCTB16-SCT-44C-SC-RA
- HiCTB16-SDC-44C-SC-RA
