Built to Integrate.

The most versatile industrial-grade tablet that perfectly fits your application.

Tab-IND® Series for Use in Industrial Environments

Your automation, our passion.

PEPPERL+FUCHS

Tab-IND® Tablet Series

Digital Workflows Directly at the Point of Use

The Tab-IND series is designed for demanding applications where reliability, efficiency and fast access to information are essential. The robust devices in 8- and 10-inch versions support a wide range of applications in manufacturing, logistics and field service. They enable the end-to-end digitalization of work processes and integrate seamlessly into existing workflows.

Manufacturing

- Control of production lines and machines
- Real-time quality assurance and process monitoring
- Integration into smart factory and Industry 4.0 environments
- Mobile support for maintenance and diagnostics
- Access control and employee authentication

Logistics and Warehousing

- Digital inventory management and asset tracking
- Barcode scanning for efficient warehouse processes
- Fleet management and mobile applications for vehicle servicing
- Mobile data capture and digital documentation
- Transparent real-time data throughout the supply chain

pepperl-fuchs.com/pf-tab-ind

Field Service

- Digital and paperless workflows
- Remote diagnostics and technical support in real time
- Mobile access to service documentation and work instructions
- Digital order and task management
- Capture of images and data for complete service documentation

Highlights

- Industrial tablet in 8- and 10-inch versions
- Robust, slim design for demanding working environments
- IP65 protection against dust and water jets
- Android or Windows operating systems
- 8 GB RAM; 16 GB RAM optionally available for Windows
- Integrated NFC antenna
- Comprehensive range of accessories

Accessories

SmartBacks
Back-cover modules for seamless tablet integration

- Battery extension
- Magnetic card reader
- Ethernet, USB and other interfaces
- Individually configurable industrial interfaces (Industrial Ethernet, CAN, IO-Link, and others)
- Wireless communication (RFID, UWB and others)

Robust for Industrial Use

Dust and waterproof
Reliable operation outdoors and in demanding industrial environments

Scratch-resistant and chemically resistant
Resistant to common cleaning agents and disinfectants

Vibration-resistant
Tested according to MIL-STD-810G—ideal for continuous use in vehicles and forklifts

Break- and impact-resistant
Robust design according to MIL-STD-810G reliably protects the tablet from impacts and drops

Extended temperature range
Reliable performance even in extreme heat and cold

Bright, high-resolution display
Optimal readability outdoors—even in direct sunlight

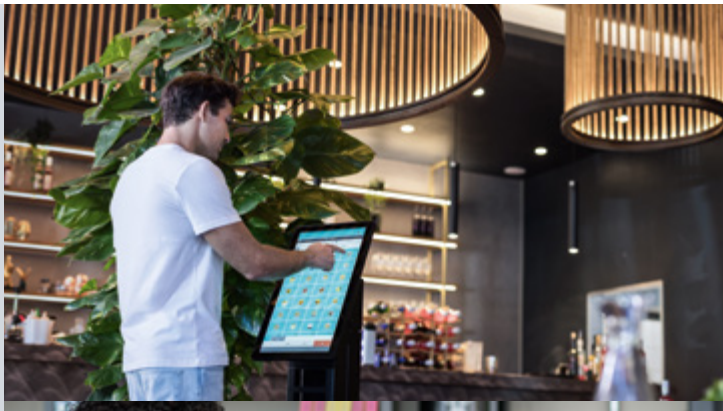

Responsive touchscreen
Precise operation with gloves and in wet conditions or rain

Tab-IND for Retail and Hospitality

The Tab-IND tablets and kiosk terminals, also available in 15- and 22-inch versions, support modern digital processes in retail and hospitality. They combine reliable performance with an appealing design and enable intuitive self-service solutions and contactless payment. This helps make processes more efficient while sustainably improving the customer experience.

Typical Applications

- Self-service kiosks and digital ordering systems
- Mobile point-of-sale systems and contactless payment
- Digital information and wayfinding systems
- Check-in and registration solutions
- Visitor management and access control

Your automation, our passion.

- Industrial Sensors
- Industrial Communication and Interfaces
- Enterprise Mobility
- Hazardous Area Products and Solutions
