## VAA-2E1A-CB10-SJ/E2J-FL

10.1

2.1

#### Model number

#### VAA-2E1A-CB10-SJ/E2J-FL

CB10 safety module 2 safety-related inputs and 1 conventional electronic output

#### **Features**

- Connection of contact safety swit-٠ ches, e.g. EMERGENCY STOP button
- Applications up to Cat. 4, PLe / SIL3
- Modular safety solution
- Ultra-compact enclosure

#### **Function**

The VAA-2E1A-CB10-SJ/E2J-\* is an AS-Interface safety module with 2 safety-related inputs and one conventional output. A twochannel mechanical switch or a single channel mechanical switch each can be connected to the two safety-related inputs. The output is a conventional electronic nonsafety-related output, which can be loaded with 100 mA.

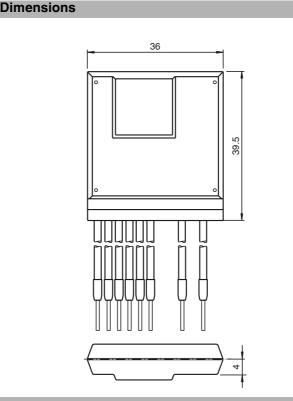

The module is suitable for remote connection of switches in very limited space. The onepiece housing provides a degree of protection of IP20.

The connection to the AS-Interface cable as well as to the inputs and output takes place via strands with open cable ends.

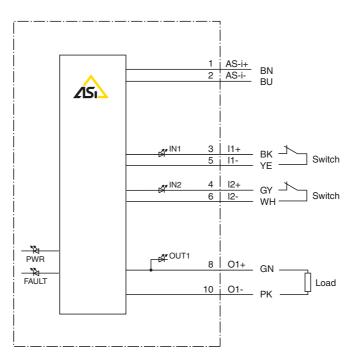

To indicate the current switching state, an LED is available for each channel, mounted on top of the module. Two status LEDs are used to monitor the AS-Interface communication and indicate whether the module has the address 0.

The module can be used up to Category 4/PL e according to ISO 13849-1, SIL 3 according to EN 62061.

If two single-channel switches are connected, the module can be used up to Category 2/ PL c according to ISO 13849-1, SIL 1 according to EN 62061.

Safety Instructions If a single-channel switch is used, the module is suitable for use up to category 2/PL c in accordance with ISO 13849-1, or SIL 1 in accordance with EN/IEC 62061. Only tested and certified power supplies with safe isolation may be used to supply power. These power supplies must have PELV voltage in accordance with EN 50295 / IEC 62026-2, and a minimum MTBF of 50 years. The power supplies are designed to exclude a short circuit between the primary and secondary sides.

Mounting Instructions You may attach the device to a level mounting surface using the enclosed double-sided adhesive pad.
