

Solutions Ex d IIC based on GUB Enclosures, Stainless Steel

GUBX*

- Stainless Steel enclosure
- Ex d and Ex tb certified
- Installation in Zone 1, Zone 2, Zone 21 and Zone 22
- Gas group IIC
- Various enclosure size and design variants
- Integration of electrical components and operating elements as per customer specification
- Customizable configuration of operators, cable entry quantities and cable gland types as per specification
- Thermo-resistant tempered glass window
- Degree of protection IP66 or IP66 / IP67

Function

The GUBX enclosure series forms the optimal basis for the application-specific configuration of terminal boxes as well as control and distribution panels. A wide range of components and control functions can be integrated in one of many size and design options of Ex d IIC and Ex tb certified flameproof enclosures. They are manufactured from high-quality stainless steel.

This durability and the comprehensive enclosure sizes cover the requirements of many industries including offshore and marine applications. A choice of windows allows viewing of integrated monitoring functions. Electrical components can be integrated as per customer specification.

Dimensions

Dimension values see data table.
 Real values might differ slightly due to manufacturing tolerances.
 Dimensions are valid for standard enclosures and IP66 variants only.
 Image and drawing are generic for this device type and may deviate from the specific variant.
