Software

eRESTORE

- Back up device data, including contacts, messages, call logs, calendar, Wi-Fi configuration, wallpaper, bookmarks, and application data
- Android™ application
- Available at Google Play

Data recovery application for Smart-Ex® 02

Function

eRESTORE is a data recovery application for Smart-Ex® 02 device. It allows to backup device data such as contacts, messages, call logs, calendar, Wi-Fi configuration, wallpaper, bookmarks and application data. The backup file can be shared via GMAIL, Google Drive, etc. or copied to a removable SD card on the device. The backed up data can be restored to the original device after a factory data reset. The device data is stored in an encrypted format and a key is required to create or restore the backup.
Note: Designed for Smart-Ex® 02 series only.
Disclaimer: This application can't cover 100% of all use cases. Please perform a test backup on some devices before rolling out to all devices in your factory.
