

## Features

- Panel PC
- Device installation in Zone 1 and Zone 21
- 15" Monitor (38.1 cm)
- Network based data transfer via Ethernet
- Adapted for distances up to 90 m (or 2 km by using an optionbox)

## Application

VisuNet EX1 devices are operator workstations for use in harsh industrial conditions. Typical application locations are the chemical and the pharmaceutical industries as well as the petrochemical industry.

The operator workstations are available as Remote Monitors and as Panel PCs.

The Panel PCs are especially suitable as standalone solutions or in conjunction with a PLC.

Panel PCs come with all the functionality of PCs.

The Panel PCs run under Windows XP Professional or Windows 7 Ultimate FES. Software packages for control, visualisation and production can thus be easily installed.
