Features

- Remote Monitor
- Can also be operated as Extended Desktop, Clone Monitor and with several host PCs
- Device installation in Zone 1 and Zone 21
- 15 inch monitor (38.1 cm)
- Network based data transfer via Ethernet (optional RDP, or VNC)
- Adapted for distances up to 90 m (or 2 km by using an optionbox)

Application

Visunet EX1 devices are operator workstations for use in harsh industrial conditions. Typical application locations are the chemical and the pharmaceutical industries as well as the petrochemical industry.

The operator workstations are available as Remote Monitors and as Panel PCs.

The Remote Monitors are suitable for use in distributed control systems or can be connected to several Host PCs.

Remote Monitors can be operated as multimonitor systems (several RMs at one Host PC or several Host PCs at one RM) as well as in the form of Extended Desktops. Data is being transmitted Host PC either via RDP, VNC or ICA.

The network capabilities of the Remote Monitors ensure failure-free and pure digital data transmission. The operator workstations are administered via their IP addresses, so that topology changes can be made without hassle. No additional software installation is required.

General specifications						
Туре	Remote Monitor					
Supply						
Rated voltage U _r	24 V DC (20 30 V DC)					
Power consumption	max. 75 W					
Indicators/operating means	Indx. 70 W					
Display						
Туре	TFT, LCD					
Screen diagonal	38.1 cm (15 inch)					
Resolution	1024 x 768 pixels					
	representable: 640 x 480 up to 1024 x 768 pixels					
Color depth	16 Mio.					
Contrast	400:1					
Brightness	250 cd/m ²					
Reading angle	85° / 85° / 85°					
Life span	50.000 h @ 25 °C					
Input devices	Analog resistive touchscreen (optional), Keyboard with integrated mouse functionality: touchpad/joystick versions available					
Interface						
Interface type	USB , RS-485, RS-422, RS 232, Ethernet , TTY					
Ambient conditions						
Operating temperature	-10 50 °C (14 122 °F) (at switching on) -20 50 °C (-4 122 °F) (when operating)					
Storage temperature	-20 60 °C (-4 140 °F)					
Relative humidity	max. 85 % non-condensing (48 h endurance test)					
Mechanical specifications						
Degree of protection	IP64					
Installation	Mountable on floor, wall or ceiling several mounting options (turnable/fix) available					
Mass	approx. 33 kg					
Dimensions	503 x 423 x 142 mm (display) 590 x 700 x 470 mm (surface-mounted case)					
Cut out dimensions	432 mm x 355 mm					
Data for application in connection with hazardous areas						
EU-Type Examination Certificate	BVS 07 ATEX E 008 X
